NOTE 1: When a category other than Total Population is selected, the data in this table refer to the race, Hispanic or Latino origin, or tribe/tribal grouping of the householder.

NOTE 2: A household that has at least one member of the household related to the householder by birth, marriage, or adoption is a "Family household." Same-sex couple households are included in the family households category if there is at least one additional person related to the householder by birth or adoption. Same-sex couple households with no relatives of the householder present are tabulated in nonfamily households. Responses of "same-sex spouse" were edited during processing to "unmarried partner." "Nonfamily households" consist of people living alone and households which do not have any members related to the householder.
