NOTE 1: When a category other than Total Population is selected, the data in this table refer to the race, Hispanic or Latino origin, or tribe/tribal grouping of the householder.

NOTE 2: "Families" consist of a householder and one or more other people related to the householder by birth, marriage, or adoption. They do not include same-sex married couples even if the marriage was performed in a state issuing marriage certificates for same-sex couples. Same-sex couples are included in the families category if there is at least one additional person related to the householder by birth or adoption. Responses of "same-sex spouse" were edited during processing to "unmarried partner."

* Summary File 2 has a population threshold of 100. Data are available only for the population groups having a population of 100 or more of that specific group within a particular geographic area. Data for some census tracts may not be available because the population is less than the threshold.
